Email: omhca@yahoo.com

Who Are We?

OMHCA is the organization that focuses solely on representing and promoting the interests of licensed professional clinical counselors through advocacy, member service and professional development. We are a chapter of the American Mental Health Counselors Association and a Division of the Ohio Counseling Association.

Benefits of Membership

- Advocacy with the state legislature and regulatory agencies through the lobbyist we cosponsor with OCA, and through the involvement of our Executive Board and members. We represent our members and all LPCCs through our interactions.
- Discounted fees on OMHCA sponsored and co-sponsored CEU Professional development workshops across Ohio.
- Exclusive information and communication with our members through our list-serve cehs-omhca@wright.edu on such topics as legislative action updates, regulation/rule changes, job opportunities, office space and supervision connections. We help our members find resources and respond to their requests for information. We offer opportunities to help our members interact with other practicing counselors throughout the state.
- Regular newsletters and a web site, www.ohmhca.org, to provide more information to our members.
- An active Executive Board (winner of 2006 AMHCA State Chapter Award). We encourage our members and student members to enhance their professional lives by becoming active on our Board.
- Organization of regional meetings and interest groups to give practicing counselors a chance to interact with their peers.
- A voice for clinical counselors in mental health practice with counselors in other specialties through our status as a division of the Ohio Counseling Association.
- Membership cards and certificates. We offer a full 12 months of membership regardless of the time of year you join.

OMHCA – The only organization working exclusively for Ohio's PCCs & Mental Health Counselors
